

STS@MDU

Reading Seminars series – Spring 2022

With the goal of creating an STS-Science and Technology Studies group at Mälardalen University and in line with the MDU's mission and vision, this Reading Seminars Series is organised to foster a democratic STS conversation about themes related to the broad areas of Digitalization, Welfare Technology/Health and Care, Sustainability.

Per each seminar, one paper will be distributed at least two weeks in advance and an Outlook invitation will be sent out to all members of the group already existing in Teams. However, the invitation can be forwarded to others who might be interested in joining the seminar.

All seminars will be run over Zoom and the link is shared here and in the Outlook invitation.

Below the programme that will be updated in due time and shared in the STS Teams channel (in "General" – "Files").

For joining the STS channel in Teams, contact michela.cozza@mdh.se or silvia.bruzzone@mdh.se or david.redmalm@mdh.se

Programme

The reading (i.e. a selection of chapters) will be communicated one or two weeks in advance.
