Reading Seminars series – Spring 2024

With the goal of creating an STS-Science and Technology Studies group at Mälardalen University and in line with the MDU's mission and vision, this Reading Seminars Series is organised to foster a democratic STS conversation about themes related to the broad areas of Digitalization, Welfare Technology/Health and Care, Sustainability.

Per each seminar, one paper is distributed at least two weeks in advance and an Outlook invitation is sent out to all members of the group. However, the invitation can be forwarded to others who might be interested in joining
