

20 March, 2024

Statement of costs

From the website of the Swedish Migration Agency:

For applications submitted to the Migration Agency during 2024 the support requirement is a minimum of **SEK 10 314 per month**.

You must show that you have funds to support yourself during the period for which you are applying for. You must show that you have your support secured by means of verification of your own bank assets, a scholarship or similar means of support, such as a study grant from your home country.

Your own bank assets are money in an account that belongs to you and from which only you and, if any, your spouse can withdraw money. It cannot be considered as your own assets if you share the account with, for example, your parents or a relative. Nor does the Migration Agency accept that a sponsor (such as a relative or a company) covers your support while you are in Sweden, unless the funds are deposited into your own account.

For more information please see www.migrationsverket.se/English/Private-individuals/Studying-in-Sweden/Universities-and-university-college.html
